## ABOUT ME

Frontend developer with a solid technical education background in **Computer Science** that strengthened my problem-solving skills. Proficient in **JavaScript, TypeScript, React, Next.js,** and **Node.js.** Successfully directed team collaboration as a **Project Manager** under **Scrum**, alongside delivering quality frontend solutions. I pay close attention to detail and enjoy building clean, responsive web applications. Seeking a role that offers challenges and opportunities for professional growth.

## EDUCATION

**Lviv Polytechnic National University  | 2020-2024**

Bachelor of Computer Science

## PROJECTS

**Goal Tracker** | *React,Redux Toolkit, Node.js, Express.js, RESTful API, MongoDB, CSS*          GitHub

- Developed a full-stack web application allowing users to manage long-term objectives and daily tasks.
-  Implemented functionality to add categorized goals with individual steps, add, edit and delete daily tasks, manage notes.
- Provided user authentication for personalized experience.

**Bookstore E-Commerce** | *React, Context API, Redux Toolkit, Node.js, Express.js, Firebase, CSS*   GitHub

- Developed a fully functional e-commerce app for purchasing books online, featuring a modern user-friendly interface.
-  Created a book catalog with real-time filtering and search capabilities, allowing users to browse books by title, genre or author
- Integrated payment methods for handling transactions

**Personal Portfolio Website** | *React, HTML, CSS, Framer Motion*          Demo | GitHub

- Designed and built a personal portfolio website to show my projects and background as a front-end developer
-  Featured projects with descriptions and links to live demos or GitHub repositories.
-  Provided responsiveness for different devices

**Gadgets E-Commerce** | *Next.js, Redux Toolkit, Supabase, Sass(SCSS),  Swiper.js*          Demo | GitHub

- Acted as Project Manager, coordinating team efforts and guiding technical decisions.
- Implemented product fetching from the database with dynamic updates. Enabled product liking (wishlist) for personalization.
- Developed sorting and search functionality for easy product discovery
- Ensured the website is fully responsive for mobile, tablet, and desktop devices.
- Provided user authentication for personalized experience.
